About the FDP

This 5-day International Faculty Development Programme is designed to equip educators and academic leaders with innovative teaching practices and deepen their understanding of environmental education in the framework of NEP 2020. The program will host global experts and foster interdisciplinary dialogue on sustainable, inclusive, and eco-conscious education.

The event draws inspiration from Shaheed Amrita Devi Bishnoi, a fearless environmental warrior who, along with 363 Bishnoi villagers, sacrificed her life in 1730 AD at Khejarli, Rajasthan, to protect trees—planting the seeds for India's earliest ecological movement.
